

## **RC Fliers of Venice**

### **Rules For Use of Club Utility Trailer**

The Club recently registered and licensed the yellow utility trailer which it owns, with the State of Florida. The trailer was originally purchased with the understanding that any member who had a need that required the use of a trailer would have access to it.

Per review of our insurance coverage with the BOLT Agency, the club's liability for any damage incurred while a club member is towing the trailer with their vehicle, is secondary. The trailer may not be used by anyone other than an adult RC Fliers of Venice club member.

Therefore, any club member must provide proof of their insurance coverage on the "Request for Use of Club Trailer" (See on reverse side.)

This form should be presented to either Bob Bader or Toni Nisi of the Club at least 72 hours before you wish to use the trailer.
